DEAR DR. HOSHEL

Re: Patient Name: **SMUCKER'S AUTUMN ERB**  
Reg # (CKC, AKC, other): AKCSR4192740 Owner: ERB, N  
OVC Case Number: N/A

I have reviewed the series of radiographs of the above-mentioned dog which you submitted which were made at approximately twelve months of age. I consider both coxofemoral joints to be within normal limits for a dog of this breed and age.

Flexed lateral projections of both elbows made on the same date are also considered to be within normal limits for a dog of this breed and age.

Thank you for referring this case for evaluation. If we can be of further assistance, please contact us at 519 824 4120, ext 54161.

Yours Sincerely,

S. Nykamp, D.V.M.  
Diplomate ACVR
