DEAR DR. HOSHEL

Re: Patient Name: **BONNIEVIEW'S GALAXY ERB**
Reg # (CKC, AKC, other): TW195449 Owner: ERB, NATHAN
OVC Case Number: N/A

I have reviewed the series of radiographs of the above-mentioned dog that you submitted which were made when the dog was approximately fourteen months of age.

I consider both coxofemoral joints to be within normal limits for a dog of this breed and age.

Flexed lateral projections of both elbows made on the same date are also considered to be within normal limits for a dog of this breed and age.

Thank you for referring this case for evaluation. If we can be of further assistance, please contact us a 519-824-4120, ext 54161.

Yours Sincerely,

Heather Chalmers, DVM, Diplomate ACVR
Assistant Professor, Radiology
Ontario Veterinary College
